## Annual Report

### 2017

## MD's Message

We are pleased to present the annual Corporate Social Responsibility (CSR) report that highlights the most important social responsibility activities supported and promoted by Daleel Petroleum Co. LLC.

We seize this opportunity to appreciate the efforts of all individuals and private and governmental institutions that have joined hands with us to ensure success of our programs and activities that have been carefully developed to meet the needs of each stage of the construction and development of this country.

It is worth mentioning that the close relationship between the company and the local communities has witnessed remarkable development in the past year. The company considers the community success and development an integral part of its success, therefore it supports the activities and programs that benefit the local communities where the company operates.

Since youth is the main objective of the development process, as outlined by H.M the Sultan Qaboos bin sail Al Said, the company has devoted most of its attention to the development of Omani youth. We are proud of the high Omanization rate achieved by the company which now stands at 94%. The presence of a clear training plan that enhances the efficiency of our human resources will lead us towards a passion for excellence and the best international standards in the oil and gas industry.

The education sector is one of the important sectors in supporting the Omani people to build and construct the country. Thus, we have supported many initiatives and programs in education field. We have also been very interested in supporting non-profit associations that provide services that benefit specific groups in the society, such as Omani women and people with disabilities.

Our achievements and positive indicators during the past years make us feel proud. On the other hand, they make us bear greater responsibility to continue working in supporting our local communities in response to the guidance of the wise government led by His Majesty Sultan Qaboos bin Said about the participation of the private sector in the development process of the country.

Gong Changli  
Managing Director

## Expansion and development of the market of Hujairmat, Ibri

In support of small traders, sellers and low-income people and to improve the level of services in Wilayat of Ibri, the company supported the expansion, development and addition of new facilities to the market of Hujirimat for the sale of fodder, animals, vegetables and fish. The support of this project came as a result of the continuous communication between the company and government stakeholders in Ad-Dhahirah Governorate such as the General Directorate of Municipalities and Water Resources, the Office of the Governor for discussing the development of the Governorate.

## Supporting traffic safety projects

In order to protect the lives of motorists and pedestrians on the road, the company- in cooperation with the ROP, the office of Wali Abri and the General Directorate of Regional Municipalities and Water Resources in Ad-Dhahirah Governorate- have implemented three important projects that will raise the level of traffic safety on the roads in Wilayat of Ibri. These projects are the establishment of speed bumps near some residential areas. The second project is the construction of a pavement along a public road prevents vehicles from entering in a random way. The third project is the maintenance of some of the lighting poles on one of the main roads in Wilayat of Ibri.

## Equip the electronics engineering lab of the Vocational Training Institute in Ibri

Within the framework of the cooperation with different educational and training institutions through the contribution to enhance their readiness to deal with modern science and technology, Daleel Petroleum Company funded equipping the electronics-engineering laboratory of the Vocational Training Institute Ibri. This support will raise the level of professionalism and practical performance of the Institution's students.

# Projects

## Equipping Multi-purpose Hall

The company funded equipping a multi-purpose hall in Osuod School in Hamraa Al-Dro'a. The hall will be the appropriate place for all school activities. It is expected that the hall will host various events in the community as workshops, awareness lectures and national events

## Free and open source programs use

In collaboration with the Information Technology Authority and through one of the local small and medium enterprises operating in the field of technology and information systems, the company has trained 200 teachers and technicians from various schools in the Sultanate in using free source programs instead of restricted programs. Using this type of program gives students the freedom and flexibility to transform ideas into projects and create an environment that promote creativity and innovation.

## Outward Bound Oman program for school students

For the third year, Daleel Petroleum Company hosted nearly 100 students from various schools in the Sultanate to integrate them into a training program that is participatory and working in an external environment that represents a unique challenge and experience for students. One of the objectives of this program is to develop students' practical and life skills and prepare them for labor market in the future. The most prominent of these skills are time management, problem solving, teamwork and working under limited resources.

## Planting Hamraa Al-Dro'a health center

The health center of Hamraa Al-Druh is the institution that serves all members of the community in Hamraa Al-Dro'a. The company has adopted the center's afforestation project. This project comes as a result of continuous engagement and strong relations with the stakeholders of the company, such as various government institutions to consider the possibility of contributing to the support and development of projects in the governorate.

## Provide wheelchairs for the Omani Association for the Disabled

In order to take care of the disabled as part of the community, the company has supported this group in a continuous way by contributing to the provision of part of their needs. Recently, the company provided a number of wheelchairs for disabled in the Ibri. It is worth mentioning that this support contributes to raising the standard of living of this group and integrating them into society so that they will be able to carry out their life activities in a natural way.

## Ramadan Charity Campaign

Every year, Daleel Petroleum Company launches a charitable campaign in cooperation with the General Directorate of Social Development in Ad-Dhahirah Governorate to assist some families in Ibri by providing about 100 families with some basic food supplies during the holy month of Ramadan. This campaign comes in the belief that such programs create cohesion and social solidarity that reflect the true partnership between the company and society in all its categories.

## The Eid clothes program

Eid al-Fitr program is one of the annual programs implemented by the company and in cooperation with the charitable teams and organizations. The program aims to provide the needy families with the necessary clothing and accessories for the Eid. This program spreads the spirit of happiness in the hearts of a large number of families and achieves the social solidarity approach recommended by our religion.

## Partners Iftar in Ad-Dhahirah Governorate

In order to establish close relations with its various partners, especially in Islamic events such as the fasting of the holy month of Ramadan, the company organized an Iftar party during Ramadhan that included all the stakeholders in Ad-Dhahirah Governorate; His Excellency the Governor, the members of the Shura Council and the State, all representatives of the governmental and private sector, and the sheikhs and the dignitaries. The meeting between the company's officials and the stakeholders in the Governorate enhanced the mutual relations through exchanging opinions regarding the contribution to the development of the society.

# Sponsorship

## Sponsoring "I'm Mujid" Competition

For the second consecutive year, the company has adopted " I'm Mujid" competition in cooperation with the General Directorate of Education in Ad-Dhahirah Governorate. The aim of the contest is to introduce the students to the oil and gas industry, other related industries and modern technology. Various schools from the governorate participated in the contest as students meet in an atmosphere of competition and exchange and acquire knowledge about this important industry as it represents the main source of national income in Oman.

## Sponsorship and participation in the Oil and Gas Day

Sultan Qaboos University has organized a special day for oil and gas, highlighting the latest technologies in the oil and gas industry and the challenges facing this industry by inviting many companies operating in the oil and gas sector with scientific research institutions in the Sultanate. The Oil and Gas Day is an essential platform for discussions, drawing up partnership and cooperation plans between companies and participating scientific research institutions in order to overcome obstacles and make maximum use of available natural resources in safe and rewarding ways.

## Sponsorship of "Globe" environmental program

The company aims to preserve the environment and natural resources by supporting the programs and activities targeted to preserve the environment. The company has cooperated with the Ministry of Education in sponsoring the environmental program "Globe" that aimed at developing environmental awareness and scientific research skills of the student and opening channels of communication between the Omani students and the students from other parts of the world.

## Sponsorship of Oman Science Festival

Oman Science Festival is dedicated to providing science, technology and engineering skills to students in particular and the society in general, and mathematics in an interesting and interactive way. The company is keen to support such activities which enrich the student with great scientific knowledge. Thus, the company sponsored the activities of Oman Science Festival in Ad-Dhahirah Governorate, which was highly successful and included many activities and dozens of workshops in various sciences.

# Sponsorship

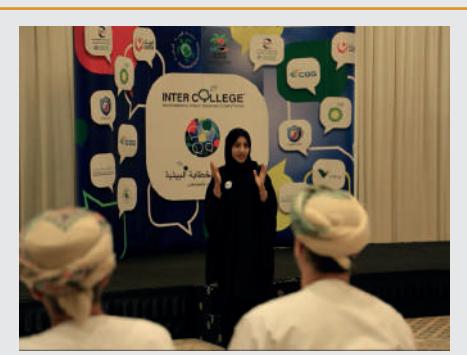

## Sponsorship of health awareness programs

In cooperation with Al-Athaiba Health Center, Daleel Petroleum Company supported a number of awareness programs during 2017. Al- Al-Athaiba Health Center plays an active role in the community through studying and investigating unhealthy practices and phenomena and formulating appropriate awareness programs to reduce the spread of diseases resulting from these practices. These programs include awareness campaigns against hypertension, diabetes, obesity and the campaign on cardiovascular diseases.

## Sponsorship of the environmental rhetoric competition

The company sponsored the environmental rhetoric competition for students of colleges and universities in its sixth edition organized by the Environment Society of Oman. This edition was attended by 40 teams from 21 colleges and universities across the Sultanate. The winning teams represented the Sultanate in the regional competition in Dubai on 27th and 28th November 2017.

## Sponsorship of the activities of the GCC Traffic Week

Daleel Petroleum Company sponsored the activities of the Gulf Traffic Week in Ad-Dhahirah Governorate, under the theme "Your Life Is A Trust ". The traffic awareness programs are directed to the public focused on the theme of the GCC traffic week through several activities and events in media, not limited to one week, but throughout the year to achieve the desired goal and obtain the best results in enhancing awareness among users of the road.

## Sponsorship of the wheelchair basketball team

The sport of disabled people become one of the special sectors in promoting the march of sport in the Sultanate in various international, Arab and local forums. Daleel Petroleum extended support to the wheelchair basketball team in its participation in the programs of the Paralympic Committee as we seek to contribute to supporting activities and events of sports internally and externally.
